

ARTICLE VII. PARKING METERS*

DIVISION 1. GENERALLY

Sec. 45-161. Designation of meter zones and maximum parking time therein; installation of meters—Generally.

The traffic engineer is hereby authorized to establish parking meter zones upon any street or portion of any street where it is determined, upon the basis of a traffic engineering study, that the installation of parking meters shall be necessary to aid in the regulation, control or inspection of the parking of vehicles. The parking of vehicles in such parking meter zones shall be controlled and regulated by parking meters.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-162. Same—Off-street parking zones.

(a) The traffic engineer is hereby authorized to designate any portion or section of any drive, roadway, or area within any public ground or lands owned or controlled by the city as a public parking zone within which parking shall be controlled by parking meters whenever the traffic engineer shall find and determine that the use of public property or any public building, structure or activity situated thereon or adjacent thereto will be benefitted by the control of such parking, or access to such ground, buildings or activity will be made more readily available to a larger number of citizens, or congested traffic and parking conditions will be thereby alleviated. In the zones so designated, the chief clerk of the municipal courts shall designate the maximum parking time for each parking meter, basing his designation on the fact finding above set forth.

(b) Whenever so designated by the traffic engineer, any such public parking zone shall be considered a "street" as such term is used in other

provisions of this chapter and such other provisions shall govern the use of such zones by the public; but such zones shall not thereby become streets for all purposes unless expressly recognized as such by the city council.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-163. Operation, design, etc., of meters.

(a) Parking meters shall be capable of being operated, either electronically or mechanically, upon the deposit therein of United States coinage, and may also accept currency, credit cards, debit cards or other forms of payment, based upon the capabilities of the meters installed.

(b) Each parking meter shall be so designed, constructed, installed, and set that, upon the expiration of the time period registered for payment made as provided herein, it will indicate by an appropriate flag, electronic display, or otherwise that the lawful parking meter period has expired, and during such period of time and prior to the expiration thereof, will indicate the interval of time that remains of such period. Where a meter has been installed that controls two or more parking spaces, then the meter shall separately perform the above function for each individual space.

(c) Where a meter has been installed that allows payment of time for a parking meter space, prints a written receipt, and does not indicate expiration of the time period registered for payment by an appropriate flag, electronic display, or otherwise that the lawful parking meter period has expired, then the operator shall display such receipt in the dashboard of the parked vehicle in an unobstructed manner.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-164. Reserved.

Sec. 45-165. When meter regulations effective.

Parking meters in the established zones shall regulate the parking of vehicles between the hours of 7:00 a.m. and 6:00 p.m. on Mondays

through Saturdays except legal holidays unless otherwise specified on the meter or by applicable signage.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-166. Manner of parking in meter zones.

Within the parking meter zones, all vehicles shall be parked parallel to the curb, unless otherwise indicated on the meter or by signage, curb markings, or other control system applicable to the meter. For parallel parking, no part of the curb side of the vehicle shall be parked at a distance greater than 18 inches from the curb. Where one parking meter has been installed on the meter pole for parallel parking, vehicles shall be parked along the curb so that the front of the vehicle is located opposite the parking meter. Where two meters have been installed on the meter pole for parallel parking, vehicles shall be parked along the curb so that either the front or rear of the vehicle is located opposite the parking meter, as applicable, based upon the relation of the meter locations to the parking spaces. Where a meter has been installed that controls two or more parking spaces, then the vehicles shall be parked in accordance with the signage, curb markings, or other control system applicable to the meter.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-167. Payment; overtime parking.

(a) Parking in a metered space during the restricted and regulated time applicable to the parking meter zone in which such meter is located requires payment in the amount applicable to that metered space, which may be paid through operation of the meter as provided in section 45-163 of this Code.

(b) No person shall park or permit a vehicle within his control to be parked in any such parking meter space during the restricted and regulated time applicable to the parking meter zone in which such meter is located while the parking meter controlling the space indicates that the paid time period for use of that metered space has expired. This provision shall not apply to the

act of parking or the necessary time that is required to make payment immediately thereafter in a form accepted by the meter.

(c) If a vehicle remains parked in any parking space beyond the parking time limit paid for such vehicle for such parking space, the parking meter shall indicate illegal parking by means of a flag, electronic display, or otherwise, and in that event, the vehicle shall be considered as parked overtime and such overtime parking shall be unlawful.

(d) Parking a vehicle in any parking space in excess of the time paid for such vehicle for such parking space shall be the initial offense under this division. It shall furthermore be unlawful to continue such violation, and more than one ticket may be issued for a continued violation under this division.

(e) If a notice on the meter itself or applicable signage placed under section 45-165 of this Code states that the parking meter is not effective during certain hours or on certain days, then this section shall not be applicable during those days or times.

(f) Exemption for vehicles in public law enforcement service:

- (1) As used in this subsection the term "peace officer" shall mean those persons who are defined as "peace officers" under Section 2.12 of the Texas Code of Criminal Procedure and those employees of the following federal agencies who are authorized to carry handguns, investigate federal crimes, and make custodial arrests of persons accused of committing federal crimes:
 - a. Federal Bureau of Investigation;
 - b. Federal Drug Enforcement Administration;
 - c. Federal Bureau of Alcohol, Tobacco and Firearms;
 - d. United States Marshal's Service;
 - e. United States Customs Service;

- h. Internal Revenue Service; and
- i. Immigration and Naturalization Service.

(2) As used in this subsection the term "department head" shall mean the police chief, sheriff, constable or other duly elected or appointed official in charge of the department or agency that employs a peace officer, provided that if the peace officer is employed by a state or federal agency, then it shall mean the person principally in command of the agency's division, field office or other work group that is responsible for the agency's operations within the city.

(3) It is a defense to prosecution under this section that the person who parked the vehicle is a peace officer and that he presents to the municipal court two affidavits. One affidavit shall be duly executed by his department head and shall set forth:

- a. That the person was at the time of the alleged offense employed under the department head's command as a peace officer;
- b. That the vehicle parked was at the time of the alleged offense owned by or in the service of the State of Texas or the United States or an agency or subdivision thereof; and
- c. That the peace officer was (based upon department head's personal knowledge or upon the records of the department head's office) at the time of the alleged offense engaged in the performance of his officially assigned duties of office.

The second affidavit shall be duly executed by the peace officer who parked the vehicle and shall state that the vehicle was not parked at an expired parking meter for more than a total of four hours on the occasion during which the alleged offense arose.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-168. Parking in other than metered space in meter zone.

Except as otherwise permitted in section 45-126 of this Code, no parking shall be permitted on any of the portions of streets in a parking meter zone at any place other than in the parking spaces designated by the traffic engineer under the terms of this division, and which are controlled by parking meters, and it shall be a violation of this section for any person to park any vehicle in any other place on the portions of the streets designated in a parking meter zone, than in parking spaces duly designated by the traffic engineer and controlled by parking meters. This section shall not apply to loading and unloading zones, taxicab zones or bus zones. It is a defense to prosecution under this section that there is no signage indicating parking is not allowed.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-169. Meter collectors.

(a) There shall be employment positions within the office of the chief clerk of the municipal courts for persons who shall be known as "parking meter collectors." The parking meter collectors shall be selected and appointed in accordance with the established hiring practices of the city. The employees holding those positions shall be under the direction and control of the chief clerk of the municipal courts or his designee.

(b) It shall be the duty of each parking meter collector to collect revenues from assigned parking meters in the city at the times and in the manner prescribed by the chief clerk of the municipal courts and to enforce the provisions of this Code and applicable state laws and regulations relating to the parking of motor vehicles.

(c) Peace officers and other persons designated by the chief clerk of the municipal courts for that purpose shall enforce the provisions of this chapter and state laws and regulations relating to the stopping, standing and parking of motor vehicles by issuance of citations on the official form prescribed by the city. Persons who are not peace officers may issue citations, but they shall not have the power of arrest. Persons designated under this section shall be issued appropriate identification and the necessary citation forms to

carry out their duties. The persons shall account to the chief clerk of the municipal courts for all citations issued and for all citation forms provided to them.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-170. Proof of parking meter location and time limit.

When any person is charged with having committed an offense under this division, proof that a parking meter was placed for the parking space in connection with which the offense was committed shall constitute prima facie evidence that the parking meter was installed and the space laid out by order of the traffic engineer, and that its location and maximum parking time were designated by the traffic engineer.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-171. Effect on more restrictive provisions.

The provisions of this division shall not relieve any person from the duty to observe other and more restrictive provisions prohibiting, restricting, or limiting the stopping, standing, or parking of vehicles in specified places or at specified times.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-172. Parking meter rates.

The chief clerk of the municipal courts is hereby authorized to establish parking meter fees for any parking meter that has been placed upon any street or other property owned or controlled by the city. The following fees are hereby established for public parking at any parking meter that is governed by this section:

- (1) *Short-term parking rate:* A rate to be established by the chief clerk between a minimum of \$0.10 for each ten minutes and a maximum of \$1.50 for each ten minutes, which includes any applicable sales tax. Short-term parking rates shall apply to a meter during a time period for which the meter has been designated for short-term parking use upon determination that the public's needs during that

time period may be best served by ensuring that the space is not used for lengthy periods of time by one vehicle.

- (2) *Long-term parking rate:* A rate shall be established by the chief clerk between a minimum of \$0.10 for each hour and a maximum of \$1.50 for each hour, which includes any applicable sales tax. Long-term parking rates shall apply at meters during those periods in which they have not been designated for short-term parking use.

- (3) In establishing the foregoing rates, the chief clerk shall consider the cost of providing the service, the prevailing private market parking rates in the immediate vicinity of the meter, and the needs of patrons of nearby businesses and other premises to have access to the use of metered parking, as well as relevant traffic mobility and engineering issues, as applicable. Without limiting the chief clerk's options, a parking space may be designated for short-term parking during some times and days and long-term parking during other times and days.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-173. Designation of authority.

Those duties of the traffic engineer under this division that do not require the exercise of professional engineering judgment or that do not relate to traffic control shall be performed by the chief clerk of the municipal courts.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-174. Temporarily restricted meters.

No person shall park a vehicle in a metered space that is subject to an access restriction in accordance with division 2 of this article. This section does not apply if the person is a permittee under division 2 and displays his permit or a true copy on the dashboard of the parked vehicle.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-175. Disposition of fees.

All fees and/or revenues generated from the use of parking meters under this division and all

fees and revenues generated under division 2 of this article shall be divided evenly between the city's general fund and the police special services fund administered by the police department.
(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-176. Transfer of authority.

DIVISION 2. TEMPORARY RESTRICTION OF ACCESS TO METERED PARKING

Sec. 45-181. Definitions.

As used in this division, the following words and terms shall have the following meanings unless the context of their usage clearly indicates another meaning:

Attendants mean the persons who are attending events sponsored the permittee.

Chief clerk means the chief clerk of the municipal courts or his designee.

Meter means a parking meter that has been installed by or on authority of the city.

Peak traffic hours mean those hours established by the traffic engineer at a particular city location.

Permit means a current and valid permit issued under this division to cause an access restriction.

Permittee means a person who holds a permit under this division and includes any employee, agent, or independent contractor of the permittee.

Access restriction means any restriction or other rendering unavailable for use by the general public of one or more metered parking spaces.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-182. Application for permit; fee.

(a) Persons who desire to obtain a permit shall make application to the chief clerk no later than five business days before the first day of the proposed access restriction, setting forth the following:

- (1) The applicant's name, telephone number, fax number, business street address and mailing address;
- (2) The name and 24-hour telephone number of a person or persons whom the chief clerk may contact if needed to resolve any issue that may arise with respect to the permit;
- (3) The purpose for which the permit is requested;
- (4) The duration for which the permit is requested; and
- (5) The location and identification number of the metered parking spaces to be restricted.

(b) The following fees are hereby established for a permit:

- (1) The fee for the permit shall be \$10.00 for each metered space per day requested under the permit application. If the chief clerk determines that the permit should be granted, then the applicant shall, prior to receiving the permit and in addition to the permit fee, pay for the city's lost revenues, which shall be an amount equal to the total cost of parking at the affected metered space or spaces for the duration of the permit, based upon the rate applicable to the metered space or spaces. No portion of the fee shall be refundable unless the chief clerk revokes the permit as provided herein.
- (2) The chief clerk shall waive the above fees for applications made by the city or upon written request of the city engineer for a city contractor working on a public works construction project; provided that a waiver shall only be afforded as reasonably re-

quired for purposes of access to the metered parking space or spaces for the prosecution of the city's work.

(c) To the extent that the imposition of any fee, requirement or other provision set forth in this division would be inconsistent with a controlling state or federal law, then this division shall be construed and applied in a manner that conforms with the applicable state or federal law.
(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-183. Review, issuance, terms, revocation.

(a) The chief clerk shall, subject to the provisions of this division and upon applicant's payment of the fee, approve an application as submitted or modified subject to this subsection and issue a permit, unless he determines that:

- (1) The application is incomplete or materially untruthful; or
- (2) The proposed access restriction, as requested, would substantially inconvenience the public in its use of the streets and that the inconvenience would outweigh any public benefits from the work, function, or activity for which the permit is requested, according to written criteria established by the traffic engineer.

(b) The chief clerk may, according to written criteria established by the traffic engineer, impose reasonable limitations upon scope of a permit, which shall be consistent with the nature and time of the restriction and its anticipated effects upon vehicular and pedestrian use of the streets. Without limiting the foregoing, the chief clerk shall not authorize restriction during peak traffic hours if a practicable alternative time schedule could be used, unless he determines that traffic and mobility will not be adversely affected. Consistent with the foregoing criteria and with approval by the traffic engineer, the chief clerk may require the permit holder to provide traffic control devices, signage, and notice to the public at the permit holder's expense.

(c) To the extent that another person has previously requested or obtained a permit for all or part of the area subject to the application or the

chief clerk is aware of any other activity that will also affect traffic at the time and in the area affected by the application, the chief clerk shall require the persons to coordinate their restrictions or may delay the effective date of the permit until a previous restriction is concluded.

(d) Each permit shall be issued in writing, shall set forth the specific meter spaces affected, beginning and ending dates, authorized days of the week and times of day, nature and authorized site of the authorized restriction, and any requirements for traffic control devices, signage, and public notice. The permit restriction shall not be valid except in strict accordance with its terms and shall be void if used in any other time, place, or manner.

(e) Permits are personal to the permit holder and may not be assigned or used by any other persons.

(f) Upon written notice to the holder, a permit may be suspended or revoked if the chief clerk determines that it was issued by error, that the obstruction is having unanticipated adverse effects upon vehicular or pedestrian traffic, or that the holder has not complied with any applicable term of the permit. If a permit is suspended or revoked, the chief clerk shall refund a percentage of the fees for any unutilized days under such permit.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-184. Hearing.

A person who is aggrieved by the decision of the city, its officials, or employees with respect to a permit application, suspension, revocation or other action under this division shall, upon written request, be entitled to a hearing to be conducted by a hearing officer designated by the chief clerk, who shall promulgate rules for hearings. The decision of the hearing officer shall be final.
(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-185. Closing of meters.

If the chief clerk issues a permit, municipal courts administration department personnel shall officially mark the meter or meters for the duration of the permit. Depending upon the type and

number of affected metered spaces and meters, the official marking may be in the form of meter bags, signage, or other indicia to indicate that the affected meter spaces are not available for public use.

(Ord. No. 04-799, § 3, 7-28-04)

(c) It is unlawful for a person who is not a municipal courts administration department employee to remove or tamper with any official marking placed under section 45-185 of this Code.

(d) Violation of this division is unlawful and shall be punishable as provided in section 1-6 of this Code.

It shall be the duty of every permittee to cause each of its attendants and agents to comply with the requirements of this division and any permit issued hereunder.

(Ord. No. 04-799, § 3, 7-28-04)

Sec. 45-188. No private rights in street.

Nothing in this division shall be construed to give any person, whether or not a permittee, any property right in or to the use of any street. All permits issued and held under this division shall be subject to the superior right of the public to the safe and orderly movement of traffic.

Sec. 45-206. Towing and storage charges when removed to city compound; redemption from compound.

(a) There shall be a towing charge for the removal of each motor vehicle to a motor vehicle compound operated by the city. The amount of the towing charge shall be equal to the actual cost to the city of having the vehicle towed to the city
